Mr. W. J. Baird, YU 2782

PLEASE NOTE

SALES TAX

All Prices herein listed include Sales Tax where chargeable.

A CLEAR UNDERSTANDING at first will always result in satisfactory business; therefore, when giving first orders they should be accompanied by satisfactory business references or remittance to cover.

Our object is to give you prompt, exact execution of all orders and the fullest value, as we wish every transaction to strengthen your confidence in us,

and our Slogan is "Service with Satisfaction."

BY BEARING IN MIND THE FOLLOWING SUGGESTIONS YOU WILL HELP US VERY CONSIDERABLY :

Please see that all Telephone Orders are distinctly called back, and, if practicable, confirm same in writing.

Write all orders out distinctly; where lengths must be had, order the shortest.

Joinery orders require a sketch; a rough pencil design will serve.

Do not hold an order back until the last moment. Allow as long a time as you can for execution.

When ordering, give shortest lengths to avoid waste, and avoid giving fixed lengths as far as practicable.

Every care is taken with orders for Rail or Boat, but our responsibility ceases upon delivery at Sydney.

Report to the Manager direct any want of courtesy on the part of any employee, or any unnecessary delay in supplying an order.

GEORGE HUDSON LIMITED.

SPECIAL NOTE

End Matched Flooring means that every board is tongued and grooved on each end. There is no need to cut this Flooring to meet on joists or nail the ends of boards, thus waste is entirely eliminated. **WHEN MEASURING RANDOM LENGTHS WE CHARGE THE NEXT FOOT FOR ANY BOARD EXCEEDING 5 INCHES FROM THE PREVIOUS FOOT.** For example, a board measuring 11ft. 6in. would be charged 12ft. and a board measuring 11ft. 5in. would be charged as 11ft.

CANE STRUCTURAL INSULATION

- "CANEC" has high structural strength and great rigidity.
- "CANEC" has exceptionally high acoustic value.
- "CANEC" has maximum insulating value against heat and cold.
- "CANEC" will soften and absorb nerve-racking sounds and noises.
- "CANEC" is highly resistant to moisture.
- "CANEC" makes complete and lasting plaster bond.
- "CANEC" is Rot Proof.
- "CANEC" is Termite (White Ant) proof.
- "CANEC" is dual surfaced. One surface is characteristically smooth, the other surface a pleasing Burlap texture.
- "CANEC" surface itself, being of a neutral tone, provides a pleasing finish untreated, but it is likewise an excellent background for any colour scheme.
- "CANEC" is the answer to the modern demand for an ideal insulating material in the construction of homes, commercial and public buildings and farm structures.
- "CANEC" is the all-purpose insulating board.

Details of Tests for acoustic, heat-resisting and structural qualities are available on request.

(Pronounced "CANE-ECK")

is the only 100% Sugar-cane Fibre Insulating Product. By a combined chemical and mechanical process the natural strength of the tough Cane fibre is greatly increased.

"CANEC" is manufactured by machinery of the latest design and improved processes to give it all the outstanding characteristics claimed.

Average Weight, $\frac{1}{2}$ in. full thick. 750 lbs. per 1000 square feet.

SIZES : 6, 7, 8, 9, 10 and 12 feet long, 3 and 4 feet wide.

Packed in bundles of 3ft. sheets, 10 pieces per bundle ; 4ft. sheets, 8 pieces per bundle.

PRICE :

$\frac{1}{2}$ in. "CANEC" Structural Insulation Board.

Up to 1,000 sq. ft.	..	..	..	34/-	per 100 sq. ft.
1,000 sq. ft. and over	..	..	..	32/-	„ „

Special Price for quantities of 10,000 feet and over.

Cartage extra at half of Pine rates, see pages 6 and 7.

Not subject to Sales Tax.

SAMPLES ON REQUEST.

The uses for each CANEC Insulation product—board, lath, tile and roof insulation—are pictured in the sketch appearing above.

SAMPLES ON REQUEST.

CANE STRUCTURAL INSULATION

FACTS ABOUT CANEC.

CANEC is delivered to your dealer carefully wrapped in sealed packages, which protect each sheet against injury and dirt.

TECHNICAL DATA.

CANEC BOARD :

Sizes : 3 and 4 feet wide by 6 to 12, 14 and 16 feet long.

Weight : Standard half-inch board, 750 lbs. per 1000 sq. ft.

Thickness : $\frac{1}{4}$ inch, $\frac{1}{2}$ inch, 1 inch and up to 8 inch.

Strength : Modulus of rupture over 500 ; tensile strength over 250 lbs. per square inch.

Insulation Value : Co-efficient of thermal conductivity .325 B.t.u. per hour, per square foot, per 1 degree Fahrenheit difference in temperature, per inch of thickness.

CANEC LATH :

Sizes : 18 inches by 48 inches and 16 inches by 32 inches.

Thickness : $\frac{1}{2}$ inch, $\frac{3}{4}$ inch and 1 inch.

Plaster Bond : Over 1600 lbs. per square foot.

Physical qualities : Identical with Canec Board.

CANEC TILE :

Sizes : Furnished in two standard sizes, 18 inches by 48 inches and 16 inches by 32 inches. Long edges are shiplapped and all edges on exposed smooth sides are bevelled.

Special sizes on order.

Physical qualities : Identical with Canec Board.

Prices for " CANEC ", $\frac{1}{4}$ inch, 1 inch and thicker, on application.

Prices for " CANEC " Lath and Tile on application.

HUDSON'S 'FAMOUS' JOINERY

Our enormous Joinery Factories are the largest and finest equipped in the Southern Hemisphere.

All materials used are of first quality, Kiln-dried, and our method of manufacture is incomparable.

We carry the largest and most comprehensive stock of Doors in the Commonwealth, and can supply at shortest notice.

We offer the following suggestions:—

Use **Stock** lines wherever possible.

If to be specially prepared, give ample time for execution.

If in doubt, visit our Works, and we shall be pleased to show you our method of manufacture, and you will have an instructive and enjoyable hour.

We guarantee to give satisfaction!—What more can we do?

GEORGE HUDSON LIMITED.

Redwood Doors are the same price as Oregon.

Redwood Doors have Redwood Plywood Panels.

Hudson's Artistic Parquetry or Super Floors

TO meet the enormous demand for this modern floor covering George Hudson Ltd. have recently erected an extensive building for the preparation and mechanical handling of this product.

Super Flooring is prepared from thoroughly seasoned and selected timber which is carefully matched on sides, cut accurately to length, and tongued and grooved on the ends.

This material is then ready for attaching to the surface of your existing floors, which are first covered with felt, to eliminate sound, then secret nailed, sand papered by our electrical machines, and wax polished, producing an indescribably beautiful floor.

Hudson's Super-Floor is manufactured only from thoroughly seasoned timber, it will not shrink or warp, and being tongued and grooved all round, it is completely interlocked, which compels it to remain in position where fixed.

Super Flooring is incomparable with all other floor coverings both as regards appearance and its everlasting qualities, and is very much cheaper than carpets and more hygienic.

We supply Super Flooring fixed, electrically cleaned off, filled in and wax polished, or the materials "ready cut" in bundles, milled, end-matched to approved designs and ready for fixing.

We stock Hudson's Super Flooring in Pacific Oak, Jarrah, Maple, Blackwood, Mountain Ash, Tasmanian Oak, Tallow-wood, Rosewood, Silky Oak, etc., etc., and can prepare in lengths and sizes for making up any design.

We will be pleased to quote for materials only, or for the flooring fixed and polished complete.

Any further information or quotations freely given on request to our Manager, Super Floor Department.

**PARQUETRY FLOORING IS A LUXURY COMBINED WITH AN
ECONOMIC NECESSITY.**

Hudson's Electric Floor Surfacers

**WE WILL ELECTRICALLY SANDPAPER, FILL AND WAX OR
LACQUER YOUR FLOORS ANYWHERE**

We have a Fleet of 55 of the most modern and best equipped Floor Surfacing Machines obtainable. They have special vacuum Attachments which collect the dust from the roller. The edging system is perfect, enabling us to work practically right up to skirting and outside finishes. Where power is not available, we can supply a petrol-driven generating set. These machines are for hire by the day or contract, for any class of floor levelling; we supply most capable and carefully trained operators, and use the highest grade of garnet paper.

We make our own arrangements for supply of power and carry out work in any part of Australasia.
